

**Course Name** : Introduction to General Linguistics  
**Course Code** : SAC0318  
**Course Teacher** : Agus D. Priyanto, MCALL

---

## Description

Language is a complex structure, containing systemic components . This course is focused on discussing the internal organisation and representation of each component. In addition to the classroom seminar session, students are required to apply the concept of each component of language to such languages as English, Indonesian, or Javanese.

## Objectives

After taking this course, students should be able to:

- to explain the basics concepts/features/characteristics of language
- apply the concepts/rules of each component of language (Phoneme, Morpheme, Clause, Discourse, Meaning) in the language they speak (English, Indonesian, Javanese)
